

Assembly and Fabrication Services

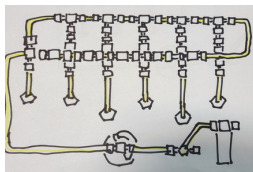

Would you rather buy the parts and pieces?
Or buy the complete assembly?

You Sketch It. We Build it.

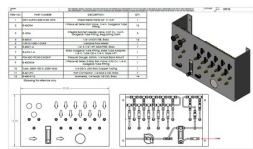

Swagelok North Carolina | East Tennessee is pleased to offer assembly and fabrication services utilizing Swagelok products and other customer specified components.

Our Swagelok certified assembly technicians are certified and qualified to assemble products to our exacting specifications.

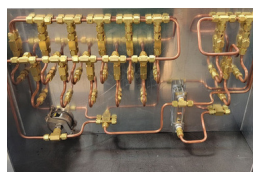

Sketch

Sketch out what you want to build or have a key account manager work with you to help visualize the final decision.

CAD

If needed, our team can provide CAD support to transform your sketch into a fully functional P&ID with complete bill of materials.

Final Assembly

Our qualified, certified Assembly and Fabrication team will assemble and test the final product design.

Instead of ordering parts, you can place a PO for a single part number bill of materials.

Benefits of Using Swagelok Custom Solutions:

- **High Quality** – Each operation is governed by our quality program and a specific set of SOP's.
- **Reduced Waste** – Buy only what is needed to get the job done.
- **Reduced Rework** – You only accept and pay for assemblies that meet your specifications.
- **Reduced Cost** – As an authorized Swagelok sales and service center, we avoid the mark up or administrative costs involved in procuring Swagelok products.
- **Reduced Paperwork** – You only place one purchase order rather than several.

Our Local Capabilities

Fitting Pull Up

Tube Bending

Orbital Welding
