

Swagelok Rental Equipment

Precision tools locally on-hand for rent without the hassle of capital equipment

Whether your next job requires tube fitting installation, tube bending and cutting, or orbital welding, we have the tools you need to get the job done right and on time.

Tool Case - 1/4, 3/8 and 1/2 in.
Weekly: \$800

The Swagelok Tool Case is equipped to prepare you for any tube fitting installation or tube bending challenge including 1/4, 3/8. and 1/2 in. sets of all the tools you need for your next installation.

Manual Bench top Tube Bender
Weekly: \$300

Manual unit, bends fractional and metric tubing.

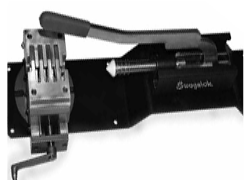

- lightweight aluminum construction
- 1 to 180° bending range
- Comes with 1/2 to 1 in. aluminum bend shoes.

Electric Tube Bender
Weekly: \$300

High quality bends on fractional and metric tubing.

- Electric control
- 1 to 110° bending range
- 1 to 2 in. OD (0.049 to 0.220 in. wall thickness tubing range)

Manual Push-on Tool - MS-SPOT
Weekly: \$250

Designed to ease the assembly of swaged hose assemblies in 1/4 to 1 in. sizes.

- Push-On tool
- Mandrels (short, medium, long)
- Lubricant

Trailer Mounted Tube Straighter
Weekly: \$900

Designed for installing continuous length tubing in infrastructure such as CNG fill stations or using endless/bundled tubing in tracing or winterization applications.

- Easy tilt trailer tailgate for weld spool loading.
- Comes with 2, 2 1/2, 3 and 4 in. tube collets.

Tube Facing Tool - TF72
Weekly: \$300

Designed to machine flat, smooth, square, burr-free and chamfer-free tube ends and Micro-Fit® miniature tube butt weld fittings.

- Can be used on 316 SS, carbon steel, titanium and most nickel-based alloys.
- Comes with 2, 2 1/2, 3 and 4 in. tube collets.
- Portable and lightweight design formability and easy operation.

Tube Facing Tool - MS232
Weekly: \$200

Designed to machine flat, smooth, square, burr-free and chamfer-free tube ends and Micro-Fit® miniature tube butt weld fittings.

- Can be used on 316 SS, carbon steel, titanium and most nickel-based alloys
- Comes with 1/8 to 2 in. tube collet
- Portable and lightweight design for mobility and easy operation.

Multihead Hydraulic Swaging Unit- 1/2 to 1 in. and 1 to 2 in.
Weekly: \$300

Preswage Swagelok tube fitting ferrules onto tubing prior to assembly. Available in two unit sizes with choice of interchangeable fractional tooling for:

- 1/2 to 1 in. tubing and tube adapters
- 1 to 2 in. tubing and tube adapters
- Reduces assembly torque and installation.

M200 Power Supply Weekly: \$800

The Swagelok® welding system M200 power supply offers precision and control combined with easy-to-use touch-screen operation for orbital welding. Weld head and fixture block included.

- Up to 200 A peak output capability
- OD sizes 1/16 to 4 in.
- Integrated mass flow controller automatically controls OD shield gas flow

5H Weld Head Weekly: \$575

Comes with 1/8 to 1/2 in. tube collets and fixture block

10H Weld Head Weekly: \$575

Comes with 1/2 to 1 in. tube collets and fixture block

20H Weld Head Weekly: \$575

Comes with 1/2 to 2 in. tube collets and fixture block

40H Weld Head Weekly: \$1,200

Comes with 2 1/2, 3, 3 1/2 and 4 in. tube collets and fixture block

Purge Panel Kit Weekly: \$575

The Swagelok® WPP series welding purge panel displays the flow of purge gas and the resulting pressure at the weld point. Two-stage bottle regulator with CGA connection included. The welding purge panel:

- Ensures steady, accurate flow of purge gas
- Provides both ID and OD purge
- Can be used for welding many different tube sizes from 1/16 to 2 in. OD.

8MRH Weld Head Weekly: \$300

Swagelok® Series 8 micro weld heads feature a compact size for easy access to confined welding areas.

- Optical speed control - no tachometer or calibration required
- Improved productivity from the ability to set up one fixture while welding another
- Comes with 1/4, 3/8 and 1/2 in. tube

ID Purge Kit Weekly: \$125

The Swagelok® internal purge pressure kit contains the components needed to set the flow rate of purge gas so that sufficient internal pressure is created in the weld area. Includes components for 1/16 to 1 in. tube welding.

5H Side Plate Kit Weekly: \$300

Contains Micro-Fit side plate and collets and thin side plate and collets for the 5H weld head. Needed only if welding Micro-Fit fittings or if thin side plate is needed to weld short tube lengths.

20H Side Plate Kit Weekly: \$300

Contains thin side plate and collets for 20H weld head. Needed only if welding short tube lengths.
